

COCOA treasures GIFT CATALOGUE

*Luxury gifts and accessories for the fashion industry in designs
inspired by 17th, 18th and 19th century artworks, tapestries
and fabrics.*

Cocoa

Cocoa Couture was established in Cheltenham in 1970 designing beautiful, individual wedding gowns. In 1990 trained fashion designer Cara Wagstaff took over the business and her love for antique textiles as well as her understanding of modern couture transformed Cocoa into a unique French inspired boutique that has attracted ladies from all over the world including celebrities and royalty! More information on wedding gowns can be found at www.cocoacouture.co.uk

Cocoa Treasures

Cara's love of antique artworks, tapestries and fabrics from the 17th, 18th and 19th Century has led her to expand out from wedding gowns and develop her own range of individual fabrics and silks to create unique scarves, lingerie and accessories – The Cocoa Treasures Collection.

All the designs are printed in the UK on the finest pure silks and soft touch velvet, and hand finished by herself and team of seamstresses,. Her designs are based on images from her own collection of artworks but she is happy to take commissions if you have your own artwork of family treasures. Please contact Cara if you would like further information on commissions.

The original 18c Embroidery 'Renaissance' and some of our designs we have created from it.

Bespoke product gifts

As well as our own individual range of products we offer a unique service supplying bespoke products based on artworks from your own collection. We offer a mixture of silk scarves and fashion accessories as well as a large selection of soft touch velvet counter top gifts which will appeal to the general public and cover a wide range of price points. All products will carry your own woven label and can carry your branding, if required, on product literature at no extra cost.

Procedure

We will work with you to identify artworks from your collection that we feel are suitable for our products. Images that will reproduce well and scale to fit the various products or have textures to create patterns or designs. Cara is a trained fashion designer and Colin a graphic designer both with many years experience, guiding you to ensure you get beautiful quality products reflecting your establishment. Once agreed we will require an high resolution digital image of each of the pieces to capture onto our system. There is a one off fee for capture and evaluation of each image and all product design. This is not charged on subsequent orders. Photography can be arranged if required and this will be quoted separately by our photographer.

Once captured our designers will create designs for each of the individual products within each package and submit digital proofs back to you for approval. Once the proofs are approved we will print and then hand finish your products and deliver usually 6–8 weeks from proof approval.
